**CDFI Fund Requests Narrative Descriptions of
Community Impacts and Project Profiles from CDFI Fund Awardees and
NMTC Program Allocatees**

The U.S. Department of the Treasury's Community Development Financial Institutions (CDFI) Fund is pleased to make available on its website, www.cdfifund.gov, the Project Profile Template. This Template is a tool developed by the CDFI Fund to allow awardees and allocatees of the CDFI Fund's various programs to more fully describe and record the innovative approaches and best practices Community Development Financial Institutions (CDFIs) and Community Development Entities (CDEs) use in revitalizing communities and serving families.

For the purposes of guidance, a 'project' can refer to an operating business that was financed by the CDFI or CDE, a real estate project that was financed by the CDFI or CDE, and/or a general product offering provided by the CDFI or CDE.

Awardees and allocatees of the CDFI Fund's various programs are invited to submit profiles on one or more projects that you believe demonstrate best practices or high impact. The project profile may be for a project previously reported to the Fund through the Community Investment Impact System (CIIS) or for a new project that has not yet been reported in CIIS.

By submitting this CDFI Project Profile Web Form, the Awardee or Allocatee certifies that all information submitted is true and accurate to the best of the Awardee's or Allocatee's knowledge. The Awardee or Allocatee acknowledges that information provided in this Form may be made available to the public through CDFI Fund publications, website and other formats. The CDFI Fund reserves the right to edit submissions for length and content. In December of 2007 the CDFI Fund intends to make all project information collected available in a searchable format on the CDFI Fund's website, similar to that used currently to report award information.
